

Number 2

Call it a Privy, a John, or Latrine
a gender-less potty, if you know what I mean.
A place we can answer when nature is calling
w/o passing laws, some think are appalling
A simple One-Seater for a fool or a genius
Where a Paula or Peter can take care of business.

A little NC Bathroom Humor - id

House Bill 2 "Splained"

Cities across America are feeling their oats passing their own social engineering laws as in "Sanctuary Cities" for example. That "Zika" virus of left-wing zealousness broke out in Charlotte which attempted to pass laws that would enable pan-sexuals, tran-sexuals, bi-sexuals, and tri-sexuals to sue in State courts for discrimination. Gender defenders define "gender identity" as "how you feel inside." The last thing we want to do these days is make someone "feel" bad. The Bill called House Bill 2 unfortunately "stepped in it." It placed North Carolina's head on the chopping block of political correctness. In the end the old fashioned Out House may be the only way to ensure privacy should you need to use the "facilities" in North America.
